Regarding Applicant's claimed invention of "specifying whether functions in a query sent from a user are executed in external databases . . . said query sent from the user can be processed by access to one external database . . . when it is determined that all functions referred to in said query cannot be processed by access . . ." combined with "said functions is said query not executable in said one external databases are executed in an internal database . . .", would not have been obvious over, nor would have been fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
